

# Number Creative Cards

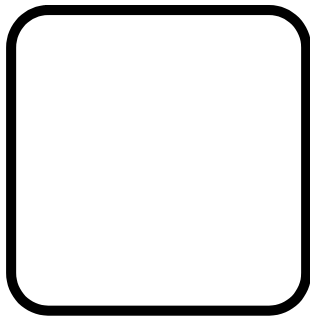

This set of number cards will provide hours of fun.

Print a set for each child on card stock. Discuss the quantity and description. Have the child draw pictures or color the shapes and cut them out to be glued onto the cards .

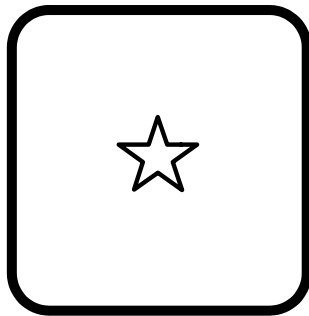

Children retain more information when education is hands-on. This set will encourage number recognition, quantity equivalents - even word recognition since they are actively adding the number of items to each card.

Enjoy your time with the children and always have fun!

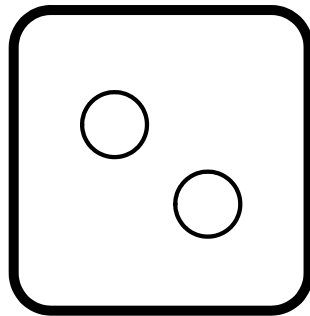

Use this sheet as a self-guide for drawing or gluing the appropriate number of items to the appropriate
