

Circle the smallest stars and color them yellow. There are five (5)

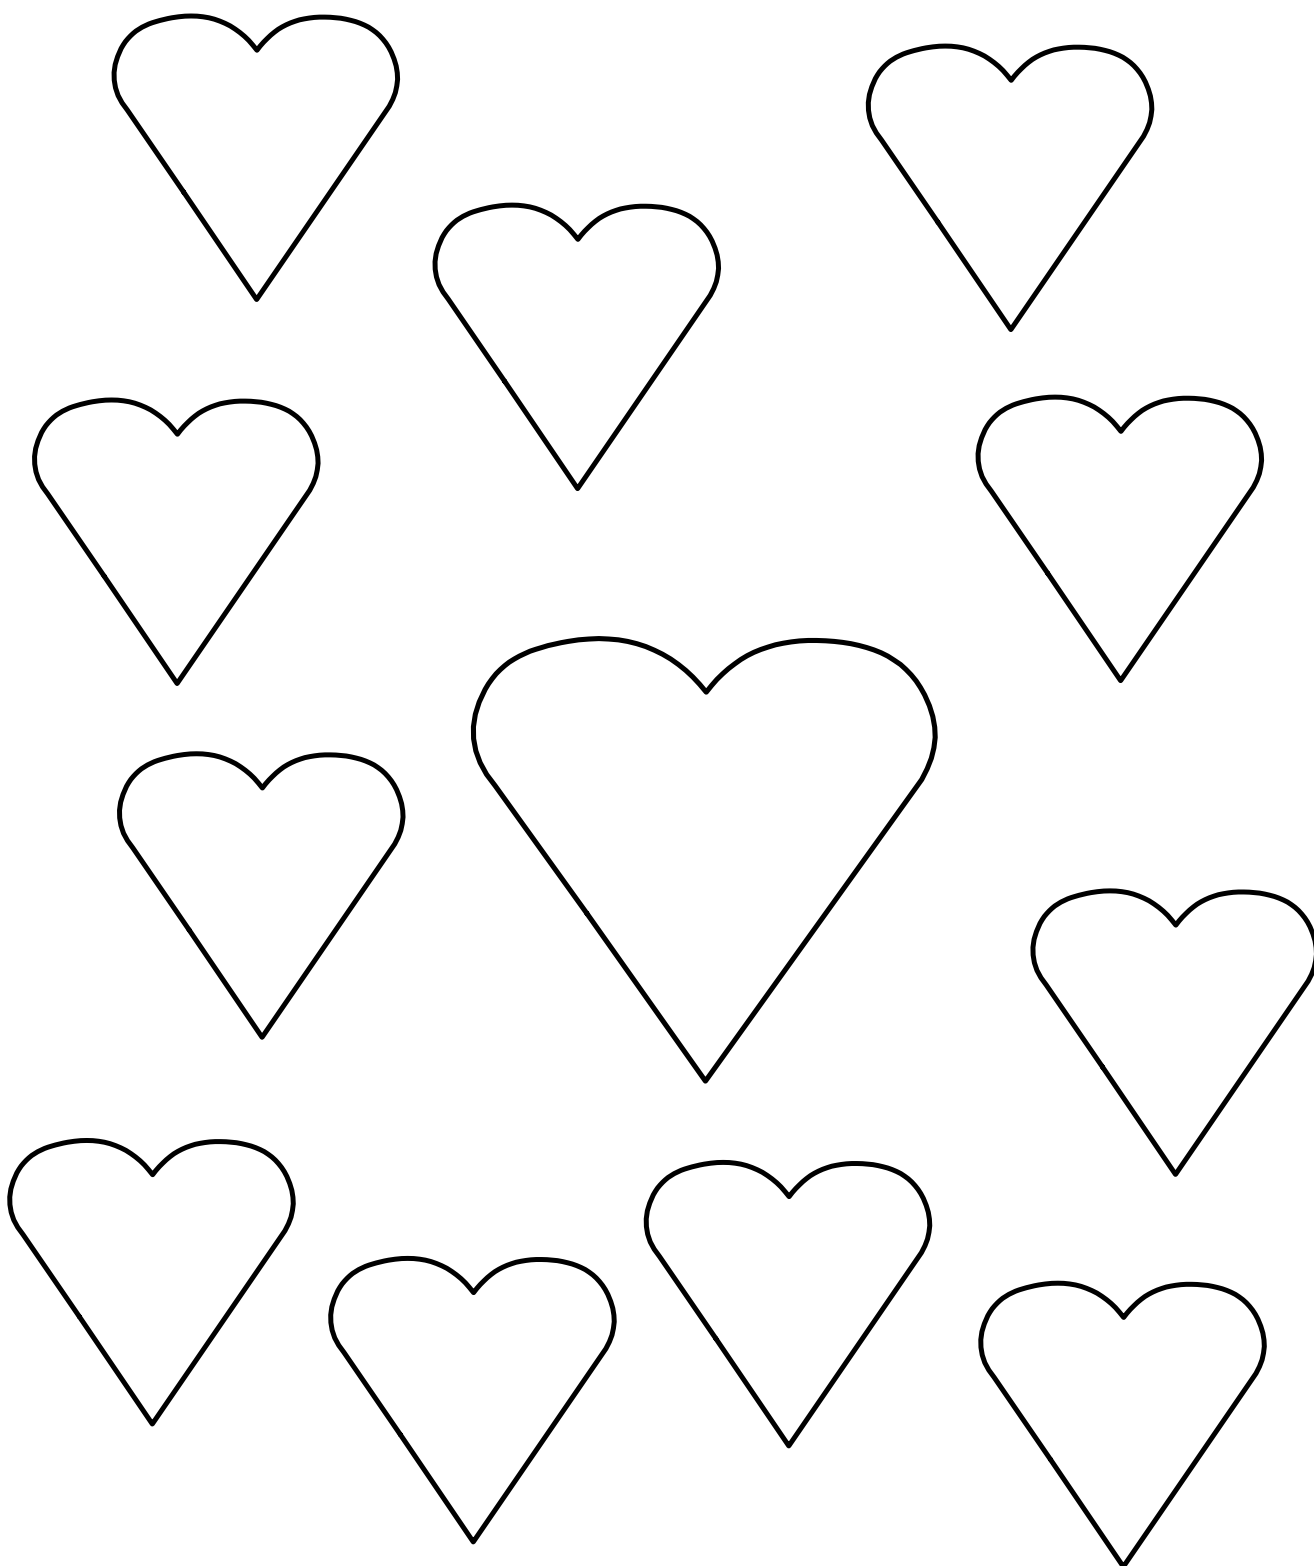

Color the largest squares red. There are 3 large squares.

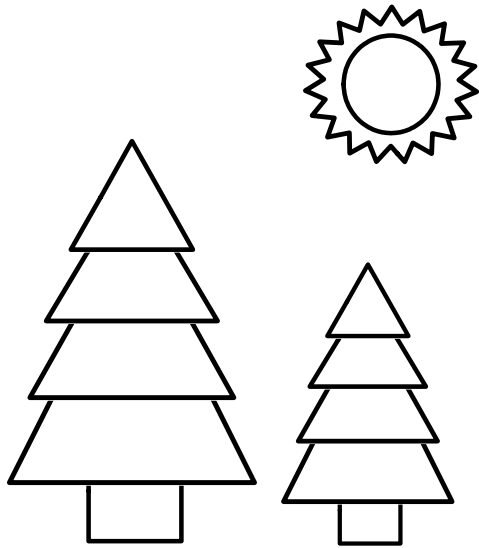

Color the medium size diamonds purple. There are 4 medium

Color the heart that is different green and color the others blue.

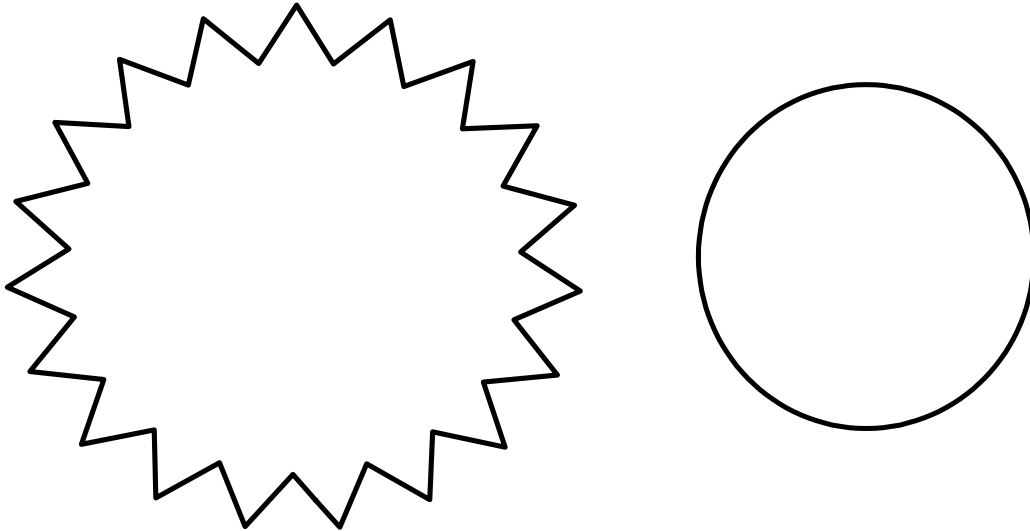

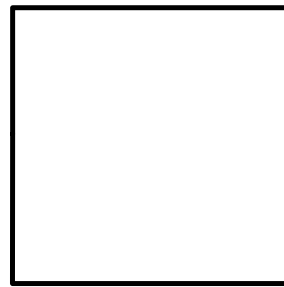

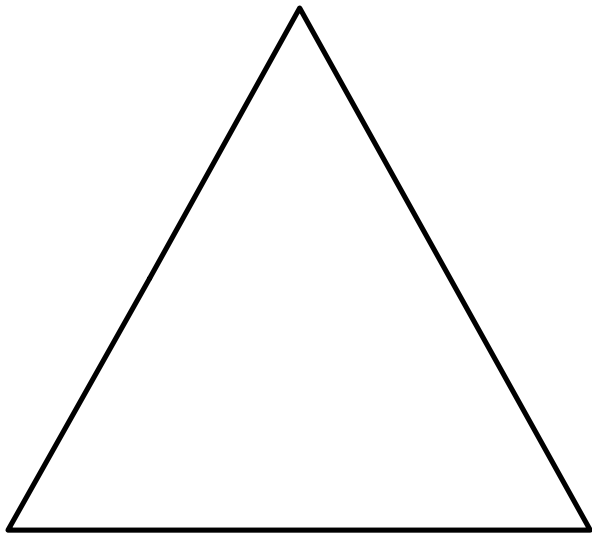

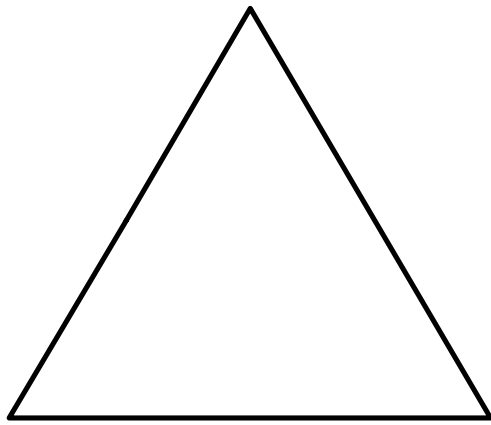

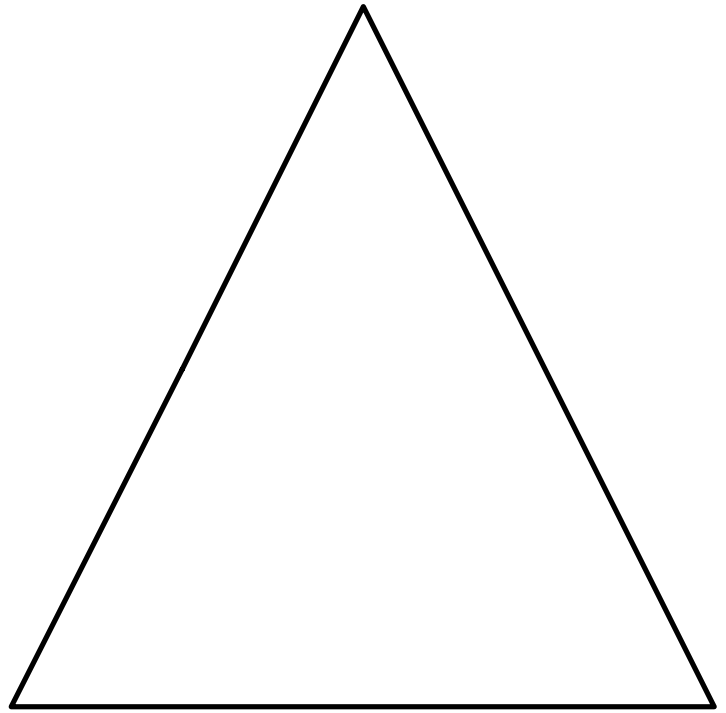

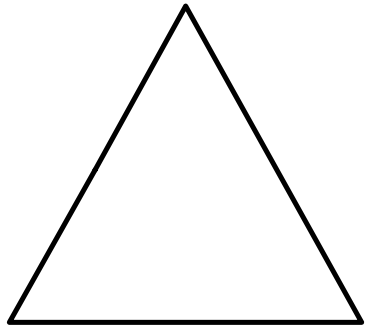

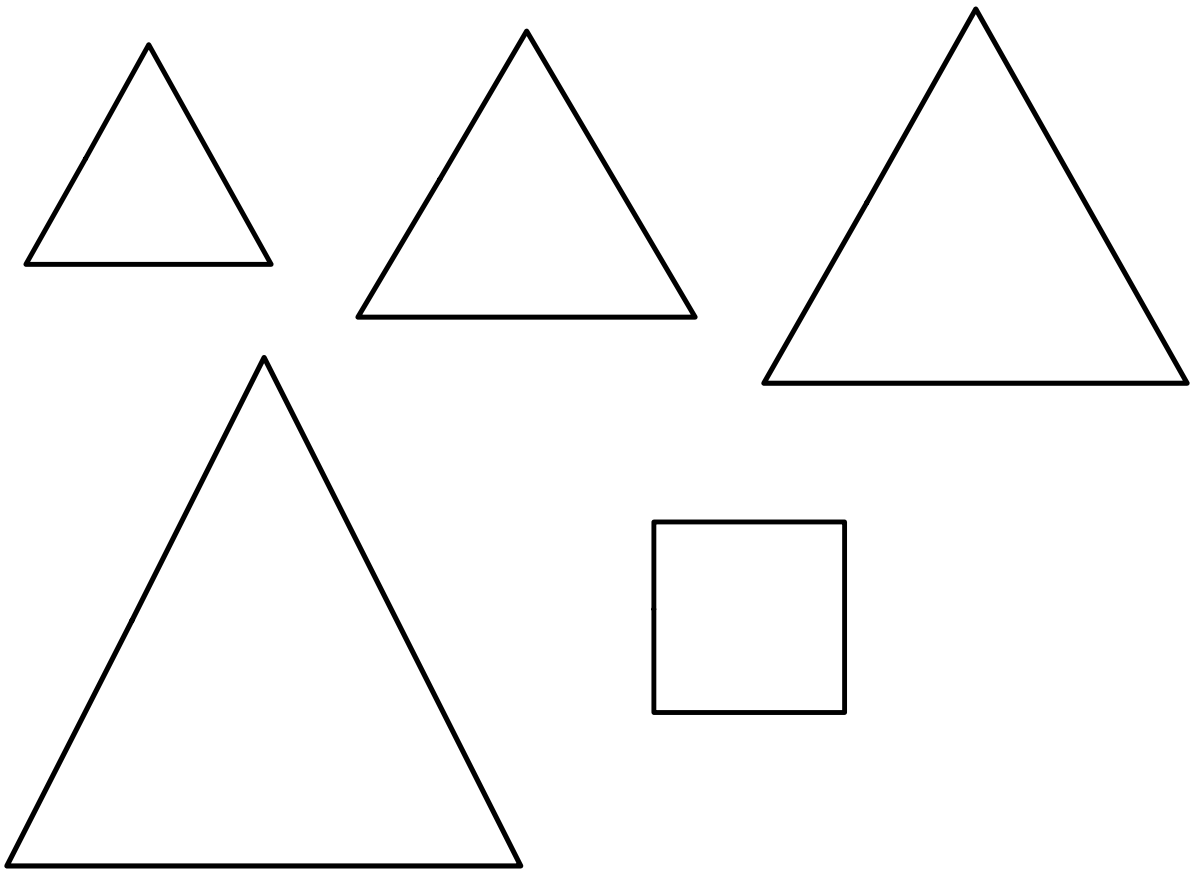

Use the triangles and other shapes on the following pages to create a hands-on picture. Remember to encourage the child to do all work that is appropriate for their abilities and age.

Color and/or cut out the shapes. Glue the shapes together to create trees and a sun (use another piece of paper for a picture that can be posted on the wall or refrigerator.) Discuss the shapes - their sizes...description, etc..... Remember that **perfect** is a picture that is created by little hands with an individual imagination!

And most important - have fun!

Optional - Already colored shapes
