

# Berry Bear Color Match

*Print out 2 copies and laminate cards (card stock paper or heavier) .*

*Turn cards face down after cards have been shuffled -  
individually face down in rows and columns .*

*The player will choose a card (turn it over )  
then choose another card - if a match is found they will place  
the cards in their own pile , then continue until a match is not  
found if playing with more than one player .*

*Each player will take a turn until the cards do not match and  
the turn goes to the next player . Once a player has finished  
with the matching and the cards do not match the cards  
need to be turned over . The player with the most matches  
wins .*

*This is only one variation of how the game can be played .  
This set would make a fantastic file folder game as well .*
